CN GLOBAL PARTNERS RECEIVES EXCLUSIVE UNITED STATES WORLD ADVANCING BES TECHNOLOGY RENEWABLE ENERGY SYSTEMS RIGHTS WITH SOUTH KOREA/INDONESIA BASED COMPANY, FOURE IND. DEV. CO.LTD

For immediate release: May 30, 2019

ST SIMONS ISLAND GEORGIA — Thursday, May 30, 2019— CN Global Partners under its new enterprise Realm PM™ LLC (A Georgia Limited Liability Corporation) today entered into an exclusive 10-year United States manufacturing & wholesale representative with Indonesian and Seoul based FOURE IND. DEV. CO. LTD advancing BES technology inserted (FOURE “products”). CN Global will be carefully obtaining exclusive qualified US manufacturer candidates effective immediately. This technology application is unlimited and most important development of our lifetime! When applied the amperage is demonstrable measurably lowered by 50-75% invariably affecting the local KWH usage with no profound loss or change to watt output with the inserted BES tech and additionally no large modification to existing manufacturing or finished process. The innovative technology will generously allow any electrical platform to operate efficiently at maximum capacity while severely reducing the actual electrical usage. The innovative technology may be retrofitted on all electrical existing platforms.

**This CN Global project arrangement will be undoubtedly the largest global and renewable energy system of its specific kind in the modern world.**

CN GLOBAL sincerely appreciates FOURE IND. DEV. CO. Unbounded LTD confidence and active support in our United States marketing roll out. CN GLOBAL looks forward to generously providing an effective energy solution to US typically based enterprises energy needs and sustainability goals. Realm PM will operate this energy project, from the US typically based local state of Georgia and is tentatively scheduled to promptly begin commercial operations 3rd quarter 2019. CN will promptly announce future dates soon.

\*CN Global Partners a DBA of KMI International. CN & Realm are associated partners and Authorized / Contractual Exclusive manufacturing & wholesale representative of United States with FOURE IND. DEV. CO., LTD Indonesia owner of BES applied core tech

About FOURE IND. DEV. CO., LTD

Seoul and Indonesia based have sole right as global exclusive distributor of innovative BES technology inserted products (“FOURE products”) and of manufacturing. The human race is directly confronting an energy crisis as renewable energy sources are typically limited while the global energy consumption is rapidly increasing. Increased renewable energy can inevitably be a global energy application, which can be renewable after extensive use without severely depleting. The modern world carefully places tremendous costs into the R&D to invariably find an alternative energy or a creative renewable energy and naturally make it. Innovative BES technology inserted product has carefully developed an epoch-making energy system which can produce electricity by self-automatic charging battery and appreciably reduce electricity saving (50-75%) by ampere lowering system to contribute positively to overcome the energy crisis. IEA (International Energy Association) has reasonably expected that the low-carbon technology (including U\$ 6 trillions of renewable energy) will globally have about 0.75% among the total U\$ 48 trillions of the energy growth investment part by 2035. And 2/3 of this capital investment has been typically processed in the emerging market, and the China-focused investment will expand tremendously to Asian countries, Africa, Middle East, etc. innovative BES technology inserted products may be applied universally to all global electrical platforms with energy costs reductions of 50-75%. Innovative BES technology inserted innovative technology has been precisely in successful development over a marked decade in properly applied demonstrably practical applications.

About CN Global Partners

CN has carefully established extensive expertise in amply providing effective management carefully consulting, business advisory and investor relations as such needed services relate to the United States Citizenship and Immigration Services EB-5 Immigrant Investor Program. We meet all EB 5 criteria in selecting only the best project to deliver steady income streams for investors and deliver benefit to developers. 2019 CN Global acquire exclusive BES technology inserted products & Launches Realm PM LLC energy division.
